

Takes the work out of Lifting and Selling

This Jack "Lifts without Labor"
because it's Hydraulic

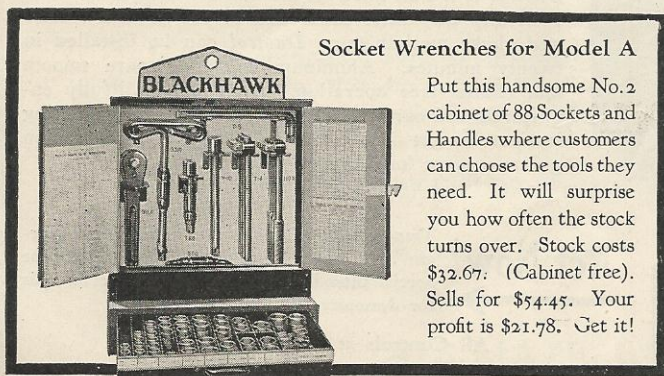

GIVE a Ford owner one demonstration of lifting his Model A with a Blackhawk—the new-day Jack—and he's sold! No other jack offers such ease in placing, lifting, and lowering.

The long, rigid bayonet-lock handle snaps on quickly—and guides jack smoothly into position. The lightest strokes of the handle raise the car quickly and steadily. To lower—simply release valve with handle tip and down she comes at smooth, controlled speed. No kneeling in dirt—or crawling under.

Get your Free Demonstrator Display—and let it sell Blackhawk Jacks for you! Blackhawk Jacks are advertised in *The Saturday Evening Post* every month. Write for catalog of full line—capacities from 1½ to 75 tons.

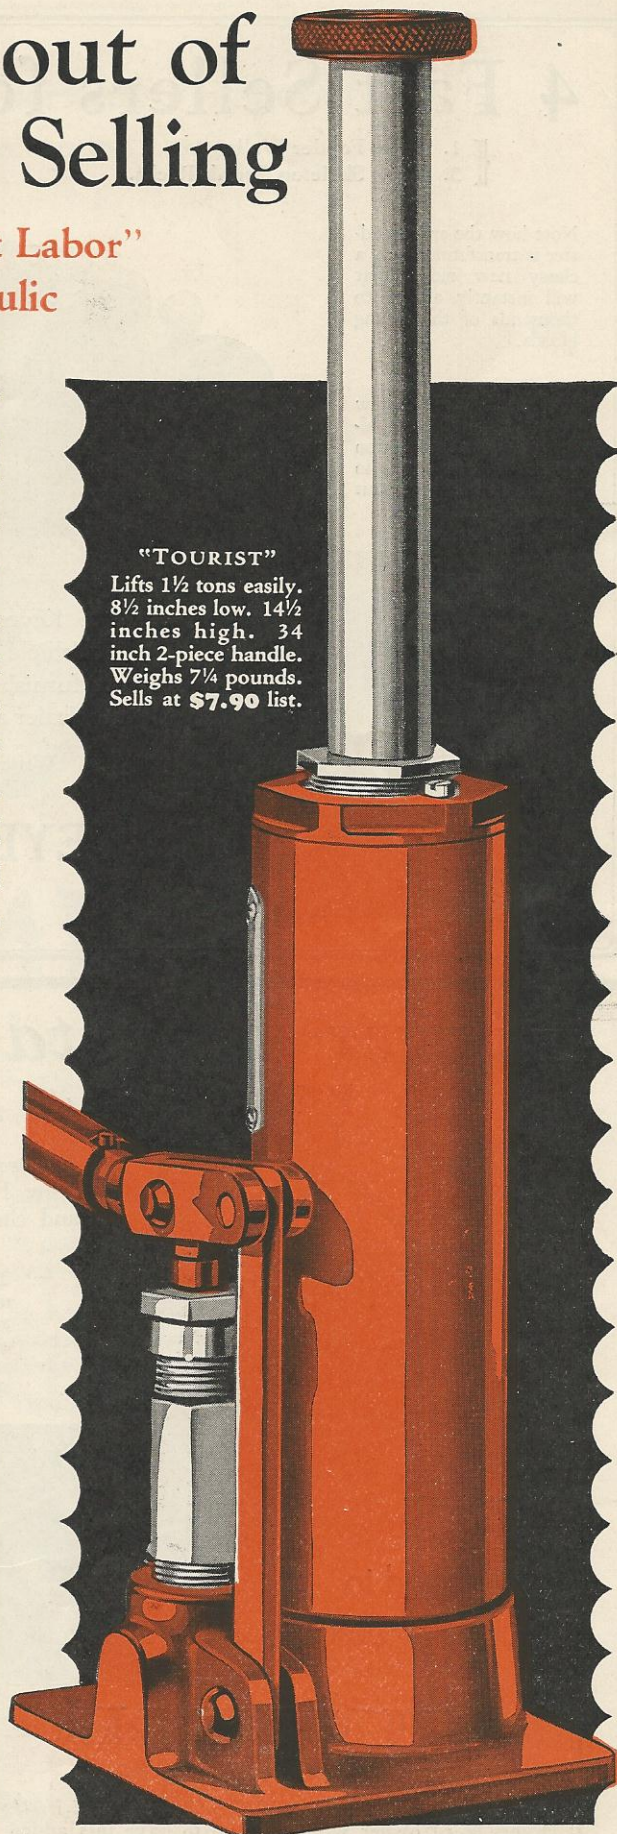

Ask your jobber's salesman. Write us for catalog of full line—capacities 1½ to 75 tons.

BLACKHAWK MFG. CO.
