

Least expensive of all Cylinder Gauges!

No micrometer or other tools necessary for determining cylinder sizes when an Ames Cylinder Gauge is used.

The Handle, with ground anvils and quickly adjustable collars, takes the place of "mikes".

Price \$17.50
complete with Setting Tool
Handle and full assortment
of points

**The Ames
Cylinder Gauge
with Setting Tool
Handle**

Speedy and positive—2 V's on back of mounting hold hexagonal handle firmly in place—Makes setting extremely easy—Saves the cost of extra "mikes"—For all cylinder sizes from 2 1/2" to 5 3/4" diameter.

Ask your jobber or send for interesting instruction book.
