

Crankshaft Endplay
BEARINGS

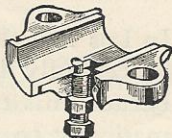

C-A BEARINGS PERMANENTLY ELIMINATE END- PLAY FOR \$2.75!

The Adjustable Bearing Company has just announced new ADJUSTER BOLTS, designed to keep the connecting rod bearings always in perfect adjustment. Made in complete sets for all makes of cars.

C-A Bearings allow the correction of end-play without "pulling" the motor...installation is simple and economical. End-play worries are ended with a C-A bearing. The Automatic bearing is priced at \$2.75 for Fords and \$3.50 for Chevrolets.

Greatly increased production has permitted a price revision for the famous C-A Adjustable center bearing for Fords and Chevrolets. The Adjustable Bearing is now available at \$2.75 for Fords and \$3.50 for Chevrolets.
