

HUGHES-KEENAN
Hydraulic Power Hoist
for Model AA Ford Truck

Here's good news for your dump equipment buyers. A moderately priced Hydraulic power hoist—strong, compact, dirt and trouble-proof, speedy in operation. Controlled right from driver's seat. It dumps a 3 ton load in 6 to 10 seconds! Gives exceptionally high dumping angle, insures low loading height and good dumping clearance. A Ford truck equipped with this powerful, easily controlled Speed-King in dump devices and a Hughes-Keenan body will stimulate your truck sales.
