Sales Still Soaring!

Never has an accessory scored such a hit! Never has a long-profit article proved such a big-volume seller! Farmers, salesmen, merchants, tourists and the great army of Ford owners who want Kari-Keen have multiplied and pyramided profits for dealers.

Makes Fords Look a Foot Longer! Adds Beauty and Class!

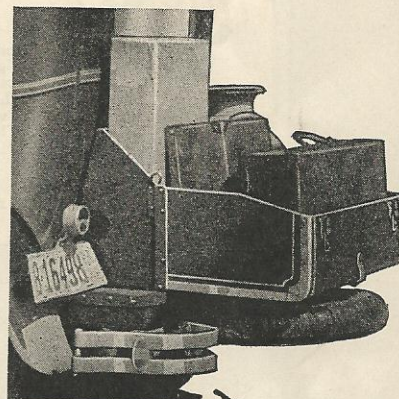

Kari-Keen is a fitting companion of Model A. It gives the Ford that dashing look of long, low lines and added wheelbase. A beautiful job throughout—all steel with Duco colors; nickel trimmed.

In a field all by itself. Carries articles that no ordinary trunk could hold. Has about three times the carrying capacity. Does away with the old-style car-scratching, running board contraption that's always in the way. **When closed** it adds nearly 5 cubic feet of weather-tight space. **When open** it provides 7½ to 8½ square feet of luggage room. Holds a 400-pound load.

Noiseless, rattleproof. Built-in tire carrier included. Takes standard bumperettes. Easily attached, bolts right on to frame. No holes to drill.

And How They Sell!

Real demand and long profits don't often go together. You get both with this big popular seller. Don't wait! Mail in the coupon now for prices, discounts and complete information.

Room for a REAL Load!
